Honey

In need of a little pampering to relax the body and revive the soul? With sweet and soothing honey, you can bypass that expensive trip to the spa and create mini-spa treatments and healthful menu ideas economically at home.

Pure and natural honey has long been a part of beauty regimens and healthful diets. Its natural hydrating properties make it ideal for use in moisturizing products. Honey also serves as a natural source of antioxidants, which may help protect our health and well-being. Antioxidants can counteract free radicals that are believed to contribute to many chronic diseases.

A touch of honey also adds rich, distinctive flavor to a variety of foods and beverages. The following pages include honey-based spa treatments and delicious recipes for pre- or post-workout activities. Try some! You'll enjoy honey's soothing effects throughout the day.

Homemade Spa Treatments

Few can resist the inner and outer glow produced by a trip to the spa. Honey, which has been used in beauty treatments since the time of Cleopatra, continues to be featured as a moisturizing ingredient in skin care and hair care products. The recipes below allow you to make inexpensive, all-natural honey spa treatments at home.

Lavender-Honey Milk Bath

- 3 tablespoons dried lavender flowers*
- 1½ cups whole milk, cream or combination
- ⅓ cup honey

Process lavender flowers in a blender until they become a powder, turning off the blender and scraping down the sides as necessary. Whisk together lavender powder, milk and honey in a glass bowl, then pour into a jar. Before each use, shake the jar and pour half of the mixture into the bath.

Store covered in the refrigerator for up to 1 week. Makes enough for 2 baths.

Cucumber-Honey Toner

- 1 medium cucumber, peeled and cut into pieces
- 2 teaspoons honey

To use, shake the bottle and saturate a cotton pad with the lotion. Sweep over face, neck and chest morning and night, and let it air dry (about 3 to 4 minutes). Store covered in the refrigerator for up to 1 week. Makes about ½ cup.

massage gently to exfoliate. Rinse off. Makes enough for 1 scrub.
